Professional Summary

Data Analyst with strong expertise in SQL, Python, Power BI, Excel, and Microsoft Power Platform. Delivers end-to-end analytics solutions, including data cleaning, modeling, and dashboard development to drive business decisions. Proven ability to uncover revenue risks, optimize profitability, and automate workflows.

Skills

Languages & Tools: Python, SQL (MySQL), Power BI (DAX), Excel, Tableau, Power Apps, Power Automate, SharePoint, Power Pages.

Core: Data Analysis, Business Analytics, Data Visualization, KPI Reporting, ETL (Basic), Data Transformation.

Soft Skills: Communication, Team Collaboration, Stakeholder Management, Cross-functional Collaboration.

Experience

Data Analyst Intern – VIP Industries Limited | Mumbai

Aug 2025 – Jan 2026

- Automated manual processes by 30% using Power Apps and Power Automate integrated with SharePoint and Power Pages, improving workflow efficiency and operational productivity.
 - Collected, cleaned, and analyzed 10,000+ business and customer data records using SQL, Python, and Excel to improve data quality and generate actionable business insights.
 - Developed Power BI dashboards and KPI reports to monitor operational performance, identify trends, and support data-driven decision-making.
 - Collaborated with cross-functional teams and stakeholders to gather business requirements, optimize reporting and improve business processes.
-

Projects

Customer Churn Analytics & Revenue Risk Modeling | SQL, Power BI, Excel

[Link](#)

- Performed churn analysis on 10,000+ customer records, identifying key drivers of customer attrition.
- Designed segmentation model to classify customers into 4+ risk categories, improving targeting accuracy.
- Evaluated revenue impact and identified high-balance inactive customers contributing majority of revenue loss.
- Developed Power BI dashboard with 5+ KPIs and interactive filters for stakeholder decision-making.
- Generated insights improving understanding of churn patterns across 3+ dimensions (geography, activity, products).

Product Line Profitability & Cost Efficiency Analysis | SQL, Power BI, Excel

[Link](#)

- Processed and analyzed 10,195 sales records to evaluate profitability and cost efficiency.
 - Engineered SQL view calculating 5+ KPIs (margin, profit, units, etc.).
 - Detected margin leakage in high-volume products contributing to revenue inefficiency.
 - Executed Pareto analysis showing top 20% products contributing ~80% of profit.
 - Created Power BI dashboard with multi-dimensional analysis (product, region, cost).
-

Education

Vellore Institute of Technology, Vellore - B.Tech in Computer Science | CGPA: 7.20

Aug 2021 – Nov 2025

Kudal Highschool Junior College Kudal - MSBSHSE Class XII: 82%

May 2020 – March 2021

New English School Kasal - MSBSHSE Class X: 77.20%

March 2018 – April 2019

Positions of Responsibility

- Senior Core Committee Member, IEEE IAS - Led planning and execution of Gravitas events; coordinated cross-functional teams and logistics.
Mar 2022 - Dec 2024
 - Senior Core Committee Member, Uddeshya NGO - Organized community initiatives focused on youth engagement and social impact.
Jan 2022 - Nov 2024
-

Certifications

- Career Essentials in Data Analysis - Microsoft & LinkedIn (Mar 2026) [Link](#)
 - Data Analytics for Business Professionals - IIBA (Mar 2026) [Link](#)
 - SQL (5★ Gold Badge) - HackerRank (Mar 2026) [Link](#)
-

Research

LIPNET - Visual Speech Recognition (Python, TensorFlow/PyTorch, OpenCV).

Built lip-reading model; improved accuracy by ~25% using data augmentation.

Achieved 85–90% accuracy via hyperparameter tuning and evaluation.
